

P2 Internships: An Intern's Perspective

Sarah Bush Lincoln Health Center

Background

- Non-for-Profit hospital
- Employees 1,700 people

Recommendations

- Purchase reusable Chair-Check pads
 - ⇒ savings of \$50,000 annually
- Retrofit lighting for electronic ballasts and T-8 lamps
 - ⇒ savings of \$53,000 annually

Alcan Packaging

Background

- Injection blow mold factory
- produces plastic bottles (IBM, SBM and EBM machines)
- 250 employees

Recommendations

- Retrofitting fixtures for T8 lamps and electronic ballasts saved \$2,000
- Repairing air leaks and switching to pneumatic diverters saved \$40,000
- Build outside air intake system for AC10 and AC11

Lessons Learned

- Audit ALL expenditure
 - Gas, electricity, water, procurements etc.
- Incrementalize processes
- Interview veteran staff
- Provide technical contacts for specific processes (i.e. HVAC, chilled water, industrial processes)
- Emphasize recommendations with little or no capital costs
